HOW AND WHY WE COLLECT PERSONAL DATA

Delivering a Customized Site Experience

Cookies. We use cookies to collect the information detailed in the chart above. Cookies are small computer files that we transfer to your computer’s hard drive that allow us to know how often you visit the Site and the activities you conduct while on the Site (e.g., whether you purchase SXSW credentials, referred to here as a “Badge”). Every computer is assigned a different cookie by SXSW.

Deactivating Cookies. You can block collection of your information and Site activity by turning off cookies. You will find further information on how to turn off cookies in the support page of your respective browser. Deactivating cookies may hinder our ability to provide you with certain services or your ability to enjoy certain features of the Site.

Web Beacons. We also may use web beacons to collect anonymous, non-personal information about your use of our Site. Web beacons are tiny graphic image files embedded in a web page or email that provide a presence on the web page or email and send back to its home server information from the users’ browser. The information collected by web beacons allows us to statistically monitor how many people are using our Site, or are opening our emails.

How We Use Cookie and Web Beacon Information. The information collected by cookies and web beacons helps us dynamically generate content on the Site or

We will not link non-personal cookie or web beacon information to any personal data collected, unless you share that personal data with SXSW through one of the SXSW forms (e.g., subscribing to a SXSW Newsletter).

Location Services. You can opt-in to Location Services on the SXSW GO app, which will enable SXSW to communicate with you about the SXSW event based on your location using push notifications. If you opt-in to location services, SXSW will collect the geofence zones you enter. SXSW may use this information in the aggregate to understand attendee navigation of the Event.

SXSW Recommends. You will have the option to favorite schedule information in order to log the events you are interested in attending. If you favorite items on the SXSW schedule, you will receive schedule, event, and registrant networking recommendations from SXSW based on those favorited items. You can also choose to make your profile in the SXSW GO application public or private. As a default, your SXSW GO profile is public, which means you will receive recommendations for other registrants in the directory based on the other registrants you've favorited, and your profile (including your name and photo) may be used in recommendations to other registrants and listed under the header "favorited by" alongside any events in the SXSW schedule that you "favorite." If you make your profile private, your profile will not be shared with other SXSW registrants or be included in the SXSW schedule.

Public Forums. If you share personal data with others in a forum, such as via SXSW Social, that information will not be private. Please think carefully before disclosing any personal information in any public forum.

Co-branded Channel Partners. SXSW links to co-branded products and/or services to websites hosted and operated by companies other than SXSW, such as YouTube for video content and MeetingMax for hotel reservations (each a "Channel Partner Website(s)"). The co-branded SXSW pages that you may access through a Channel Partner Website may have different registration processes
